Annual Measurable Objectives

The Annual Measurable Objectives score is determined using multiple data points. For each student subgroup, the school's results are compared to the statewide Annual Measurable Objectives (AMOs). "Points" are earned based on how the school compared to the AMO, to their results last year (improvement), and to how far they were from meeting the AMO (the "gap"). These points are averaged to determine a preliminary score and rating, which may be demoted if certain minimum performance requirements are not met.

English Language Arts Points Earned (Total / Possible): 0.0

1. If [Prof %] is greater than the Goal, then 100.0 points are earned and the Gap is not applicable (N/A). If not, the Gap is the difference between [Prof %] and the Goal. Subgroups of less than 30 students are Not Rated (NR).
2. Improvement from last year's result is [Prof %] minus [Prof LY %]. If Improvement is greater than the Gap, then 100.0 points are earned.
3. Otherwise, partial points are awarded using the formula (Improvement / Gap) * 100. It is impossible to earn more than 100 or less than zero points.
4. After all subgroup points have been calculated, they are added together. The total is divided by the maximum points possible (100 x number of subgroups that were not NR) to determine the final points for Reading.

AMO - Preliminary Score

The preliminary score is the average of the English Language Arts, Math, and Graduation Rate from the preceding pages. The result is applied to the rating scale to determine a preliminary rating.

English Language Arts Points:	0.0	Rating Scale:	Preliminary Rating:
Math Points:	0.0	Exceeds Standards 36.0 - 100.0%	Meets Standards
Graduation Rate Points:	3.8	Meets Standards 1.0 - 35.9%	
Preliminary Score:	<u>3.8</u>	Does Not Meet Standards 0.0 - 0.9%	

Note: The Preliminary Rating is shown for informational purposes only. Ratings will not be officially assigned until the 2014 Report Card is released.

AMO - Rating Demotions

Participation Rates

The minimum Participation Rate is 95.0%. If any subgroup does not meet this requirement in either English Language Arts or Math, a rating demotion occurs. Participation Rate is not calculated if a subgroup does not have at least 40 students required to take the test.

AMO - Final Score and Rating

If a rating demotion is required, then the preliminary score is reduced by 5.0 points to determine the final score. The final score is applied to the rating scale to determine the final rating.

40 points earned out of a possible 100 = 40.0%

A school that improves its High School Assessment Test Passage Rate and the 4-year, 5-year, 6-year, 7-year, and 8-year Graduation Rates by 10% or more in both the current and prior two year comparison periods can be rated no lower than Meets Expectations.

Because the school earned enough points for a higher rating than Does Not Meet Standards, this calculation does not apply.
