

Glass City Academy
Student Wellness and Success Funds & Disadvantaged Pupil Impact Aid
Action Plan 2025-2026

Glass City Academy (GCA) is a Non-Profit Drop-Out Prevention and Recovery Community School in Toledo, Ohio, serving students ages 15-22. The Mission of GCA is to provide an opportunity for at-risk students to graduate high school, learn marketable skills, and explore post high school options. In order to facilitate this mission, GCA has developed this plan to use Student Wellness and Success Funds & Disadvantaged Pupil Impact Aid (SWSF & DPIA).

Coordination with Community Partners

GCA's Career Advisor coordinates with all Community Partners to provide the GCA's students with Mental Health and Physical Health services. Through this coordination, the Career Advisor coordinates the use of the Student-Services Wing in order to directly connect Community Partners to GCA's students within our building. Each Community Agency maintains an office, on the GCA campus, within the Student-Services Wing. Each agency meets with students during the school day.

<u>Community Partner</u>	<u>Service to Students</u>	<u>Funding Source</u>
H.Y.P.E.	Behavioral Health Services	SWSF
Family Links	Family Centered Counseling	DPIA
A Step Beyond	Student Counseling	DPIA
Opti-Go	Vision Screening and Glasses	SWSF
Student Services Wing	Location on Campus for Community Partners to Meet with Students	SWSF
Connecting Kids to Meals	After-School Meals for Students	SWSF
TARTA	Transportation for Students	DPIA

Impact

Through the use of the SWSF & DPIA funds, Glass City Academy hopes to expand the services to students in the areas of Mental and Physical Health, to increase access to community partnerships, increase professional development for staff members, and expand before and after school meal services to students. Directly, the entire population of GCA (approximately 360 students) will benefit from the funding, by having direct access to community partners within the building. All students will also benefit from the access to food, both before and after the school day. Indirectly, students will benefit from a healthier climate within the building, and a healthier body and mind. The amount of students using the services of the community partnerships will be monitored, in order to determine the effectiveness of the funding. Student attendance will also be monitored in an effort to see if mental and physical healthiness results in better school attendance.
